ENERGY STAR®

Ice-O-Matic partners with ENERGY STAR and is dedicated to improving energy efficiency. Each ENERGY STAR certified ice maker can save businesses energy and money on their utility bills. When considering batch-type ice makers, ENERGY STAR certified systems can save, on average, about 1,200 kwh annually, or \$125/year in electricity bill costs.

- Where are the various ice stations in the establishment that will need ice?
- Will multiple ice stations be serviced from one or multiple ice makers?
