

AQUAMOR

WHY PARTNER WITH AQUAMOR?

Our vision is clear: to provide water treatment solutions that are as unique as the water we treat. By leveraging Aquamor's manufacturing excellence and analytical acumen, we tailor our approach to each customer's specific needs. This isn't just about selling products; it's about offering a partnership that understands, adapts, and overcomes the distinct challenges of water treatment. Through this partnership we provide a unique approach to the marketplace, driving focused solutions; enhancing quality, longevity and ultimately an unparalleled value proposition to our customers and the industry.

WATER: A COMPLEX CHALLENGE, A TAILORED SOLUTION

Water is a complex entity. Its characteristics can vary dramatically, even within the same neighborhood. This variability demands not just solutions, but smart, adaptable, and precise strategies. Aquamor brings a heightened level of analysis and knowledge, applying years of industry expertise to the nuances of water treatment.

A PROMISE OF SUCCESS AND IMPACT

Aquamor promises not just success, but a significant impact in the water treatment space. We offer more than products; we offer a commitment to understanding your unique water challenges and delivering solutions that work. As we embark on this journey we invite you, our valued customers and partners, to join us in shaping a future where every drop of water is treated with the utmost care and expertise.

We're not just treating water; we're setting the standard for the industry. Welcome to the future of water treatment. Welcome to Aquamor.

Crafted with the future in mind, inspired by a legacy of excellence.

OUR FACILITY

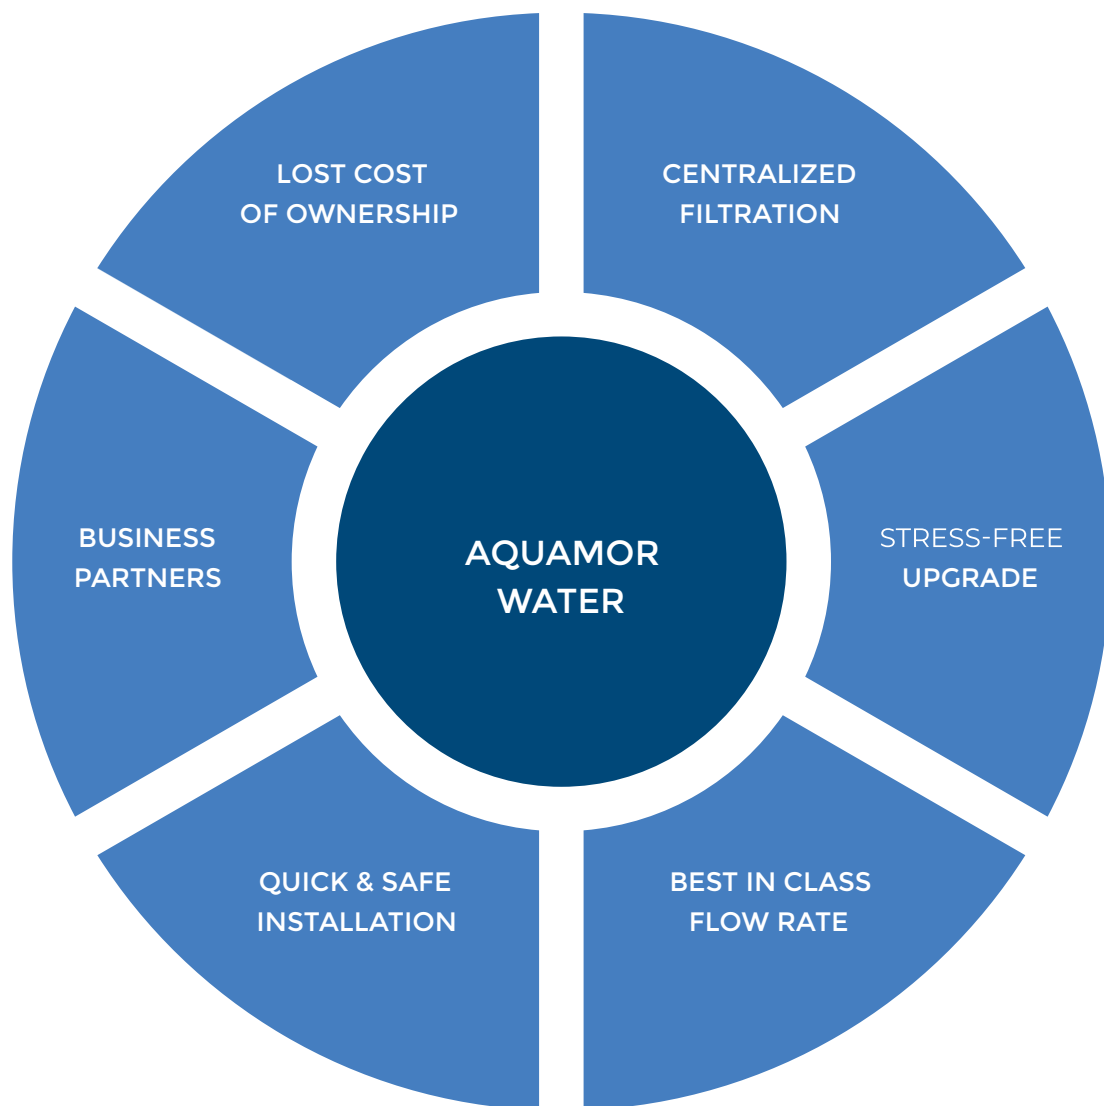

ALL PRODUCTS PROUDLY
MADE IN THE U.S.A.

AQUAMOR

All of Aquamor Foodservice's new Catamount™ products are manufactured in Temecula, California (Southern California – Wine Country).

CATAMOUNT® SERIES

Aquamor Foodservice is a comprehensive water treatment product line of filters and systems that were designed to provide peace of mind to the foodservice industry as it pertains to water quality, breadth of product offerings, unique next generation features and benefits. All products are proudly Made in the U.S.A. Whether you are looking to upgrade to the highest quality systems available or find high quality replacements for existing products, the Aquamor Foodservice program is your one-stop shop for all your filtration needs.

AQUAMOR
FOODSERVICE

LEGACY — SUPERIOR QUALITY COMPATIBLE FILTERS

Our NSF Certified Legacy platform offers replacement filters for all major filter brands. We are confident that we can provide you with a direct solution and replacement packages for product currently used in the market place. Our products meet or exceed OEM performance for flow, filtration, and capacities. we offer the highest quality compatible filters for:

- 3m/Cuno® +
- Everpure® ++
- Hoshizaki® +++
- Selecto Scientific® *
- Antunes **

+ Cuno is a registered trademark of the 3M Company.

++ Everpure® is a registered trademark of Everpure Inc. Northbrook, IL

+++ Hoshizaki is a registered trademark of Hoshizaki Electric Co., Ltd. Corporation Japan.

* Selecto Scientific is a registered trademark of Selecto, Inc.

** Antunes is a registered trademark of A. J. Antunes & Co.

FOODSERVICE

COMMON WATER QUALITY CHALLENGES

- Turbidity/Particulate/Total Suspended Solids (TSS)
- Chemicals (Chlorine/Chloramines)
- Total Dissolved Solids (TDS)
- Total Hardness/Scale (Calcium/Magnesium)
- Cyst & microbiological contaminants (health)
- Organics (affect negative taste & odor)
- Chlorides (corrosion)
- Lead
- Sulfates
- Iron (ferrous/ferric)

WATER TREATMENT TECHNOLOGIES

- Activated Carbon Block (adsorption/absorption)
- Granulated Activate Carbon (adsorption/absorption) GAC
- Sediment/Mechanical Filtration (Particle filtration/micro filtration/utra filtration)
- Nano-Filtration (Similar to R.O. – Less TDS Rejection – 80-90%)
- Reverse Osmosis (R.O.)
- ION Exchange water softeners
- Weak Acid Cation resin (WAC)
- Strong Acid Cation Resin (SAC)
- Template Assisted Crystallization (TAC)
- Sodium based cation resin
- Phosphates
- Ozone disinfection
- Ultra Violet (UV)
- Special Medias (microbiological, scale, iron, etc.)

APPLICATIONS

- Drip brew coffee and tea
- Espresso based coffee products
- Carbonated and non-carbonated drinks (including drinking water)
- Ice machine/Frozen Carbonated Beverage (FCB)
- Flash steamers and proofers
- Boiler tank based steamers
- Drinking/table water
- Ware washers

WATER TREATMENT SPECIFICATIONS

Water Using Equipment	Flow Rates	Useful Water Treatment Technologies
Post Mix Drink Dispenser (Multiple Soda Valves)	1.67 GPM per Carbonator	Carbon Block, GAC
Ice Machine / Frozen Carbonated Beverage (FCB)	1.25 GPM	Carbon Block, GAC, Phosphate, Resins
Espresso Based Coffee	0.25 GPM	R.O. if >100 TDS, <100 TDS Carbon Block
Drop Coffee	1 GPM	Phosphates, Resins, R.O. if above 150 TDS
Drip Brew Tea	1 GPM	Phosphates, Resins, R.O. if above 150 TDS
Fresh Orange Juice	2 GPM	Carbon Block, GAC
Flash Steamer	0.1 GPM	R.O. if >100 TDS, Resins
Boiler Tank Based Steamer	1 GPM	R.O. if >100 TDS, Resins
Combi-Oven	0.75 GPM	R.O. if >100 TDS, Resins
Drinking/Table Water	1 GPM	Carbon Block, GAC
Reverse Osmosis Unit (100 GPD)	1.5 GPM	Carbon Block Pre/Post Filtration
Proffing Unit	1 GPM	Phosphates, Resins, RO.
Ware Washers	2-10 GPM (depending on equipment)	Phosphates, Resins

STANDARD OPERATING TARGETS FOR BEVERAGE / ICE (IDEAL)

Total Dissolved Solids (TDS)	<500 mg/L Limit (closer to 100 TDS Ideal)
Total Chlorine	<0.5 mg/L
Chloramines	<0.5 mg/L
Chlorides	<100 mg/L
Sulfate	<250 mg/L
Iron (Ferrous or Ferric)	<0.3 mg/L
Hardness (as calcium carbonate)	<100 mg/L (58 Grains of Total Hardness)
Total Alkalinity	<150 mg/L
pH	6.5 – 8.5

ESPRESSO BASED COFFEE AND STEAMERS (INCLUDING COMBI'S)

Espresso and steamer equipment require more stringent specifications to prevent mineral scale formation, and to ensure quality beverages. Specifications for espresso and steamers are listed below. Achievement of these standards are contingent upon provision of inlet water that meets the above chemical limits.

Total Dissolved Solids (TDS)	50-100 mg/L
Carbonate Hardness	<5 Grains of Carbonate Hardness
Total Hardness	<7 Grains of Total Hardness
pH	6.5 – 8.5

CATAMOUNT® SERIES

DRIP BREW COFFEE AND TEA APPLICATIONS (INCLUDING OCS)

REDUCES:

- Undesirable tastes and Odors
- Lime-scale and corrosion
- Abrasion and clogging
- 99.95% Cyst

VERIFICATIONS:

- Certified to NSF Standard 42 and 53
- Certified to NSF Standard 372

BENEFITS:

- High quality, great tasting coffee or tea
- Lower maintenance and equipment costs
- Higher efficiencies and lower energy cost
- Lower labor cost of PM
- Increased sales and profits

System	Part#	Micron	Flow Rate	Capacity	Reduction Claims	Replacement Cartridge	List Price
BGX1-2423P	105567	0.2	3.0 GPM	55,000 gal	Cyst, Turbidity, Sediment, Chlorine Taste & Odor, Scale	BGX-2423P	\$272.74
BGX1-2425P	105576	5.0	2.1 GPM	55,000 gal	Sediment, Chlorine Taste & Odor, Scale Control	BGX-2425P	105271

CATAMOUNT® SERIES

ESPRESSO BASED COFFEE/STEAMER & PROOFER APPLICATIONS

REDUCES:

- Undesirable tastes and Odors
- Lime-scale and corrosion
- Abrasion and clogging

VERIFICATIONS:

- Certified to NSF Standard 42
- Certified to NSF Standard 372

BENEFITS:

- High quality, great tasting coffee or tea
- Lower maintenance and equipment costs
- Higher efficiencies and lower energy cost
- Lower labor cost of PM
- Increased sales and profits

BGC MANIFOLD ASSEMBLIES

105003

BGC Head Assembly with 3/8" NPT + 1/2" Barb,
Rinse Valve & Pressure Gauge
List Price: \$350.27

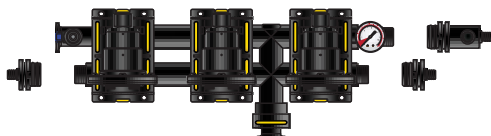

105005

BGC 1+1 Manifold 3/8" NPT + 1/2" Barb,
Rinse Valve & Pressure Gauge
List Price: \$400.30

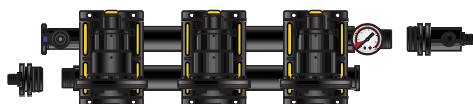

105007

BGC Twin Manifold 3/8" NPT + 1/2" Barb,
Rinse Valve & Pressure Gauge
List Price: \$406.55

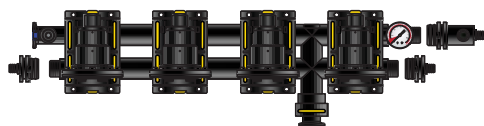

105009

BGC 2+1 Manifold with 3/8" NPT + 1/2" Barb,
Rinse Valve & Pressure Gauge
List Price: \$499.13

105011

BGC Triple Manifold with 3/8" NPT + 1/2" Barb,
Rinse Valve & Pressure Gauge
List Price: \$500.00

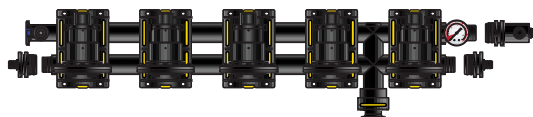

105013

BGC 3+1 Manifold with 3/8" NPT + 1/2" Barb,
Rinse Valve & Pressure Gauge
List Price: \$562.93

105015

BGC Quad Manifold with 3/4" NPT + 1/2" Barb,
Rinse Valve & Pressure Gauge
List Price: \$587.95

105017

BGC 4+1 Manifold with 3/4" NPT + 1/2" Barb,
Rinse Valve & Pressure Gauge
List Price: \$619.22

BGM HIGH FLOW FILTER PACKS

ICE MACHINES/FROZEN BEVERAGES (FCB) APPLICATIONS

ADVANCED FILTRATION TECHNOLOGY

- NSF 42, 53 Certified
- Extended chlorine taste & odor reduction performance
- Includes 5.0 and 0.2 micron rated filters
- Patented scale control media provides superior scale protection for the life of the filter
- Made in USA specialty formulated carbon block provides exceptional capacity and dirt holding capability without plugging
- High flow, low pressure drop performance

SPECIFICATIONS:

- Operating Pressure: 10-125 PSI
- Operating Temperature: 35°F – 100°F

All cartridges sold in case quantities. BGE filters come 4 to a case. BGP filters come 6 to a case.

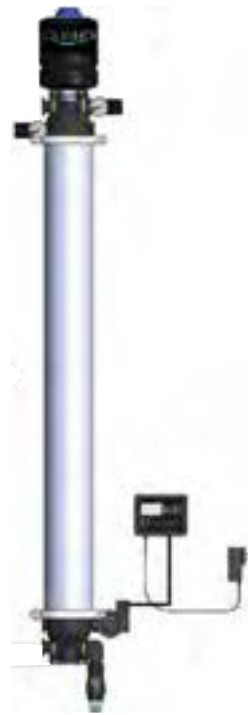

ULTRAFILTRATION (UF) SYSTEM

UF-4210-0000X

UF-4220-0000

UF-4410-0000X

UF-4420-0000X

FEATURES:

- Self-cleaning mechanical reduction assures superior performance and low maintenance costs
- 0.015 micron Ultrafilter provides consistent high quality water
- Standard packages offered from 8 to 30 GPM
- Build-on-the-wall program provides ability to expand flow rates as needed to provide solutions to multiple applications
- Simple programmable controller provides wide range of raw water application solutions
- Compact design provides powerful solutions with the smallest footprint
- Inlet and outlets equipped with both 1" and 3/4" MNPT Standard fittings
- Custom NSF Certified post filtration packages available for superior chloramine and chlorine reduction
- NSF 53 Certified for 9995% cyst reduction

Testified and certified by NSF International against NSF/ANSI Standard 53 for the reduction of claims specified on the performance data sheet

ULTRAFILTRATION (UF) SYSTEM

OPERATING PARAMETERS:

Minimum Pressure	20 PSI (1.4 bar)
Maximum Pressure	100 PSI (6.9 bar)
Minimum Temperature	40°F (4.4°C)
Maximum Temperature	100°F (38°C)
pH Range	3-10
Maximum Trans Membrane Pressure	45 PSI (3.1 bar)

PERFORMANCE: MECHANICAL REDUCTION

Substance	Influent Challenge Concentration	Minimum Reduction Requirements	Average Reduction Achieved
CYST	> 50,000	99.95%	99.99%

Model Number	Part Number	Number of Membranes	Length of Membrane	Max Flow Rate	Inlet - Outlet
UF-4210-0000 20" Single	108037	1	20	8 GPM	1" and 3/4" MNPT Standard
UF-4220-0000 40" Double	108038	2	20	15 GPM	1" and 3/4" MNPT Standard
UF-4410-0000 20" Single	108039	1	40	15 GPM	1" and 3/4" MNPT Standard
UF-4420-0000 40" Double	108036	2	40	30 GPM	1" and 3/4" MNPT Standard

AQUAMOR BG-RO REPLACEMENT FILTERS

Fits 3M/Cuno*

Aquamor's line of BG-RO SQC-style replacement filters is built for performance, precision, and peace of mind. Designed as direct replacements for Legacy systems, these filters offer seamless compatibility with SQC reverse osmosis systems and deliver the high-efficiency filtration today's foodservice operations demand.

Each filter is engineered with NSF-compliant materials, supporting Aquamor's commitment to safety, reliability, and superior water quality. Whether you're reducing Total Dissolved Solids (TDS), sediment, or chlorine taste and odor, our filters are designed for mess-free, quarter-turn replacement-ensuring quick service and minimal disruption.

From pre-filtration to final polishing, Aquamor BG-RO filters maintain the integrity of your RO system and help extend its lifespan while producing clean, great-tasting water.

Cuno/3M*	Model #	Part #	Micron	Flow Rate	Type	Reduces	List Price
